SUMMARY

I'm a highly skilled Senior Software Engineer with 9+ years of experience in mobile app development, specializing in Flutter, Kotlin, and Android technologies. Known for delivering high-quality mobile solutions that enhance user experience and exceed client expectations. A seasoned consultant, adept at leading teams, implementing agile methodologies, and integrating cutting-edge technologies. Seeking to contribute technical expertise and leadership in a dynamic organization.

SOFT SKILLS

- Strong communication and collaboration
- Problem-solving and analytical thinking
- Time management and multitasking
- Leadership and team management
- Adaptability and willingness to learn
- Attention to detail
- Creativity and innovation
- Client and stakeholder management
- Critical thinking
- Mentorship and knowledge sharing

TECHNICAL SKILLS

- Mobile Development: Flutter, Kotlin, Java, Dart
- Frameworks: GetX, MVC, MVP, MVVM
- Databases: SQL, Realm, Room
- Tools: JIRA, GIT, Subversion
- Architectures: Repository Pattern, Dependency Injection (Hilt)
- APIs & Libraries: REST APIs, third-party integrations
- Version Control: GitHub, Bitbucket
- Agile Methodologies: Scrum, Kanban
- Testing: Unit Testing, Integration Testing
- UI/UX Optimization: Android native design principles, Material Design

EXPERIENCE

TECHSCALE

Lahore, Pakistan

External Consultant

09/2021 to 07/2024

- Led the development of high-performance mobile applications using Flutter and Kotlin, ensuring seamless cross-platform functionality.
- Integrated third-party APIs and libraries, enhancing app features and optimizing user engagement across various platforms.
- Collaborated with stakeholders to gather requirements, perform in-depth technical analysis, and deliver solutions aligned with business goals.
- Streamlined development processes by implementing agile methodologies, improving team efficiency and project delivery.
- Conducted code reviews and mentored junior developers, fostering a culture of continuous learning and improvement.

ELEMENTARY LOGICS

Lahore, Pakistan

Senior Software Engineer

01/2017 to 07/2021

- Spearheaded the development of custom mobile applications, reducing time to market by 30% through effective project management.
- Led cross-functional teams to deliver android and Flutter-based applications, focusing on performance optimization and UI/UX enhancements.
- Utilized MVC, MVP, and MVVM architectural patterns to maintain code quality and scalability across projects.
- Coordinated with QA teams to ensure the delivery of bug-free applications through rigorous testing and debugging.
- Integrated new technologies, such as Hilt for dependency injection and Room for database management, to enhance app performance.

LEAD CONCEPT SOLUTIONS

Lahore, Pakistan

Software Engineer

07/2016 to 12/2016

- Developed Android applications from the ground up, implementing core features and improving user experience based on client feedback.
- Collaborated closely with clients to understand their needs, translating requirements into technical specifications for mobile solutions.
- Worked within Agile teams, contributing to sprint planning, stand-ups, and retrospectives to ensure smooth project execution.
- Improved application performance by 20% through the use of Realm for data storage and optimization techniques.
- Assisted in the integration of third-party services and APIs, expanding app capabilities for real-time user engagement.

BHIMSOF

Lahore, Pakistan

Junior Software Engineer

07/2015 to 07/2016

- Contributed to the development of multiple Android apps by implementing core functionalities using Java and Kotlin, ensuring seamless performance and a smooth user experience.
- Participated in sprint planning, daily stand-ups, and retrospective meetings as part of an agile development team to deliver mobile applications within set timelines.
- Assisted in debugging and maintaining existing Android apps, optimizing code for better performance and resolving issues reported by QA teams.
- Worked on integrating third-party APIs and libraries into android apps, expanding functionality and improving app features based on user requirements.
- Assisted in enhancing UI design following Android design guidelines, ensuring that applications were user-friendly and provided an optimal mobile experience.

EDUCATION AND TRAINING

BACHELOR OF SCIENCE: SOFTWARE ENGINEERING

09/2013

University of Sargodha, Pakistan

PROJECTS HANDLED

- Yellowbeard
- Dansk
- Satcar
- Supertrends
- Atlas Global Macro
- Petstock
- ISPT
- GBK
- Soldi POS
